January 22, 2016

Dear Member,

The Project Review Committee proposes the following fee changes for any Project Review Application submitted.

These changes will enable the GLA to cover the administration costs required to process each Project Review application. This will help to ensure that the cost for administrative processing is covered by the landowner submitting the application. Larger projects that require more administrative time use some of the impact fees to cover costs. The following fee changes are necessary:

1. All non-refundable application fees will be increased from \$10 to \$25 for all projects submitted. (This application fee includes one [1] form A-J)
2. Each additional form submitted with the same application at the same time incurs an additional non-refundable fee of \$10. See the list of forms A-J below.

Please visit the GLA website <http://www.glamontana.org/projects/> for more information on the project application process.

If you have any comments or questions on the proposed fee changes, please submit them within 30 days to the GLA Board at [info@glamontana.org](mailto:info@glamontana.org) or send them to PO Box 312, Emigrant, MT 59027.

Thank you,

The GLA Project Review Committee

List of project review forms:
